# W1: Your House Crest

— Thursday, June 4th —

---

---

# Summary:

On monday we talked about different animals and we decided which animal would represent you for your house. Today we will be learning about symbols, what they represent and where we see them, so that later we can design our very own house crests!

# Itinerary:

- Morning Stretch
- Lets Learn about Symbols
- Symbols mini game
- VE Time: Shred it Tournament

# Supplies List:

- Shred it! Is a fun, endless snowboarding game, appropriate for all ages. The campers play on an xbox, but you can purchase it on multiple platforms for \$10 if you're interested.
- Paper and color pencils
- PRINT: House Crest template
  - Or draw your own!

# Morning Yoga

It's important to start the morning off fresh so we can be focused and energized the rest of the day!

# Lets talk about symbols!

- What is a symbol?
- Why do we use symbols?
- Can you think of any symbols that you see everyday?
- Do you see any symbols in the room?

# Intro Activity: Name the Symbol

- How well do you know your symbols? On the next page there will be a sheet of symbols. I will call out a name of a symbol and the first person to find it on the sheet gets a point!

# VE time

- Today during VE time, we will be having a short tournament in a video game called Shred it. The person who has the longest run, gets a point.

# Main Activity: Your House Crest

- Now that we learned about symbols, animals, and values it's time to design your house crest! Your crest should include your house animal, as well as other symbols you think represent you.
- Print out for the crest silhouette is on the website.
- Feeling stuck? Remember these question: What values are important to me?
- Present your Crest to the rest of the campers.

# House Crest Examples for Inspiration!
